SMART Inventory Manager For Maximo

SMART Inventory For Maximo is a mobile application that lets stockroom and warehouse workers view and manage inventory operations on handheld devices. It replaces inefficient paperwork by extending IBM Maximo® to the worksite for efficient, accurate tracking, issuing and transferring of parts and materials by number, storeroom location and/or work order. SMART Inventory Manager also quickly completes physical and cycle counts, receives incoming inventory by purchase order or receipt, and offers support for barcode, RFID and voice.

SMART Inventory Manager is a mobile application from Syclo's SMART Mobile Suite For Maximo – the #1 selling, most widely deployed mobile solution for Maximo. Syclo exclusively offers mobile products integrated to IBM Maximo versions 4, 5, 6 and 7 with over a decade of integration history. All SMART products are built on the proven Agency Mobile platform which lends them the foundation for quick deployments and scale for complex user and data environments. Also, SMART products are 100% configurable and offer the widest selection of device, peripheral and communication options to meet your needs, now and in the future.

BUSINESS BENEFITS

- Know precise inventory levels
- Speed issues, transfers and returns of spare parts and tools
- Instantly reconcile purchase orders and receipts

INCREASE PRODUCTIVITY IN THE STOREROOM AND BEYOND

Automate cycle counts and inventory tracking to eliminate time-consuming paperwork and human errors. Speed part and tool issues to reduce technicians' wait time.

IMPROVE TRACKING ACCURACY FOR JUST-IN-TIME INVENTORY

Track and monitor bin levels more efficiently to implement just-in-time inventory and reduce stockout hassles, shrinkage, spoilage and overstock.

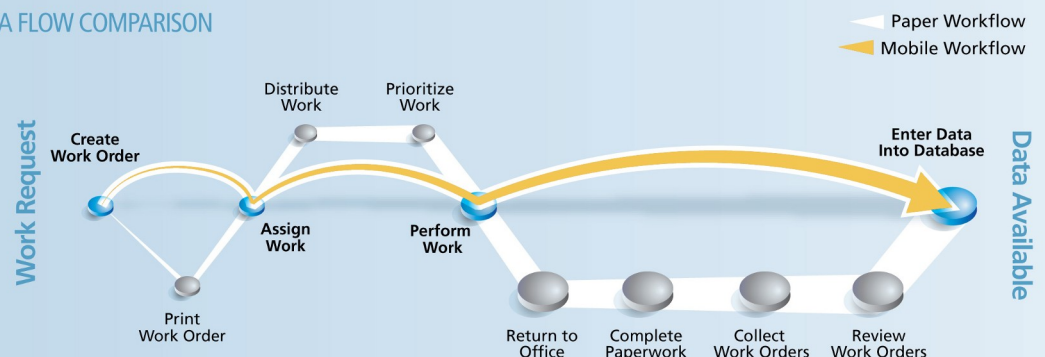

CONTROL COSTS AND IMPROVE INVENTORY PROCESSES

Generate real-time inventory updates to put the most current information in management's hands – improving decision making and planning.

STREAMLINE YOUR DATA FLOW

Reduce the number of steps, activities and personnel required to perform your daily work. Data seamlessly flows in and out of Maximo – with fewer opportunities for miscommunications, errors and data loss.
